

POSITION DESCRIPTION

POSITION TITLE

Safety Manager

POSITION REPORTS TO: Project Manager

POSITION DIRECTLY SUPERVISES: None

PURPOSE OF POSITION: Develops and implements a comprehensive program for construction safety oversight by serving as the point of contact for monitoring and maintaining District compliance with OSHA and other applicable safety regulations during construction activities.

GRADE DESCRIPTION: Safety

GRADE CLASSIFICATION: C120 **OVERTIME STATUS:** Exempt

POSITION RESPONSIBILITIES AND DUTIES:

- Implements the process for reviewing contractor safety performance against applicable laws, regulations, and District requirements
- Develops and enforces policies, procedures, programs, standards, and design criteria affecting construction safety of multiple projects
- Coordinates construction safety program development and implements activities with the District's Owner Controlled Insurance Program (OCIP) field representatives, FEMA Director, Environmental Health and Safety Branch and Asbestos Technical and Lead Support Unit
- Reviews and approves health and safety plans prepared by District construction contractors
- Reviews and oversees procedures for investigating construction accidents
- Implements and maintains a standard reporting procedure for the District's on-site OCIP
- Represents the District's interests and responsibilities on task forces, committees, and outside agencies such as OSHA and the South Coast Air Quality Management District (SCAQMD)
- Implements and maintains standard policies and procedures for construction safety
- Reviews District construction specifications and advises construction staff on necessary safety modifications
- Implements metrics for tracking and reporting on safety performance issues such as accidents, "near misses," and lost time events
- Prepares and presents written and oral reports to management, outside agencies and the public
- Directs the work of Environment Health and Safety staff and outside consultants and contractors regarding new construction safety
- Analyze situations, identify problems and recommend solutions
- Understand, interpret, and apply laws, rules, regulations, policies, procedures, contracts and labor/management agreements
- Determine strategies to achieve goals as they pertain to safety
- Compile, analyze, and interpret complex data
- Prepare comprehensive reports and correspondence
- Interact professionally with various levels of employees and outside representatives

OBJECTIVES OR GOALS TO MEASURE PERFORMANCE:

- Professional appearance and manner
- Customer/Client satisfaction
- Minimal/No lost time events, accidents, or “near misses”
- Thorough knowledge of construction safety by all staff
- Adherence to Company policies and procedures
- Positive team attitude

MINIMUM SKILLS OR EXPERIENCE REQUIREMENTS:

- Graduation from recognized college or university, preferably with a major in engineering, construction management, occupational safety, industrial hygiene, or closely related field
- 4+ years of construction safety management experience in developing and implementing accident prevention programs for a large private or public organization
- One year of supervisory experience required
- Credentialing as a Certified Safety Professional (CSP)
- 30-hour OSHA training
- Theories, principles, and practices of construction, engineering, construction insurance, safety, and risk management
- Applicable local, state, and federal laws, rules, and regulations
- General understanding of equipment and techniques used in design and construction
- Working knowledge of principles in safety engineering and OSHA regulations
- Construction, operations, maintenance, and environmental health and safety hazards to be found in a large public agency
- Accident prevention techniques and devices
- Methods used to correct existing and potential safety hazards
- Hazardous materials management
- Principles of training, employee evaluation, and employee relations
- Reliability, dependability, flexibility
- Excellent attendance and punctuality

PHYSICAL DEMANDS AND ENVIRONMENTAL CONDITIONS:

Frequency of Action Definitions

N - Not Present (non-existent)

O - Occasionally (up to 1/3 of work time)

F - Frequently (from 1/3 to 2/3 of work time)

C - Constantly (2/3 or more of work time)

Noise Intensity Level Ratings: 1-lowest level to 5-highest level

PHYSICAL

Climbing	O	Talking	C	Field of Vision	O
Stooping/Bending/Crouching	O	Hearing	C	Sitting	C
Reaching	F	Clarity of Vision - Near	F	Standing	O
Handling	F	Clarity of Vision - Far	F	Walking	F
Finger Dexterity	F	Depth Perception	F	Lifting - # of lbs.	50
Feeling	O	Color Vision	O	Carrying	O

ENVIRONMENTAL CONDITIONS

Exposure to Weather	F	Working in high, exposed places	F
Vibration	F	Exposure to Radiation	O

Exposure to Dust and Fumes	F
Proximity to Moving Mechanical Parts	F
Exposure to Electric Shock	F

Working with Explosives	O
Exposure to Toxic/Caustic Chemicals	F
Noise Intensity Level	4
